

"The Trusted Name in Real Estate"

I hope you enjoy the free use of my moving van. When you are finished using it **Please make sure it is cleaned out and the gas tank is Full.** We assume the truck is full when you pick it up unless you call and tell us otherwise. On the back of the truck is a combination lock. The combination is 7-7-3-0. Rotate dials to the combination. Press down on the release button to the left of the dials to open the compartment door. Pull door fully open and remove the keys from inside. To release the shackle push the lever, inside the compartment door, to the left and pull the shackle up and out of the lock. Close the compartment door and SCRAMBLE the dials to conceal the combination and close the shutter door when finished. Once you are done, please replace the lock on the truck and the keys in the lock, **and make sure the dolly is secure inside the truck.**

The truck may be picked up at :
